Summary

Motivated UI/UX design learner with hands-on experience in creating user-friendly mobile and web interfaces using Figma. Strong understanding of design principles, typography, and usability. Passionate about learning, improving design skills, and building intuitive user experiences.

Education

Panimalar Engineering College

Bachelor of Computer Science and Business System(cgpa:8%)

Sep 2024–May 2028

Technical Skills

UI/UX Design, Wireframing, Prototyping, User Research, Usability Testing, Information Architecture, Interaction Design, Visual Design, Accessibility (WCAG), Design Systems, Figma, Adobe XD, Responsive Design, UX Writing, User Journey Mapping, A/B Testing, Heuristic Evaluation

Soft Skills

Collaboration, Problem-solving, Communication, Time Management, Result-oriented

Additional Skills

Research, Public Speaker

Languages

English, Tamil

Work Experience

UI/UX Design Intern - Approtech R&D Solutions Pvt. Ltd. (Dec 2025)

Worked on designing the “Pet Adoption App Interface”, demonstrating strong technical skills, creativity, and professional work ethic during the internship.

Python Full Stack Intern - VEI Technologies Pvt. Ltd. (Dec 2025 – Jan 2026)

Gained hands-on experience in full-stack development using Python, demonstrating strong dedication, enthusiasm, and professional teamwork.

Projects

DEC 2025

Making a Pet Adoption App Interface System (MPAAI)

I designed a complete UI/UX interface for a Pet Adoption mobile application, focusing on creating a smooth and intuitive user journey. The project involved developing wireframes, user flows, and high-fidelity screens with clean and accessible design elements. I worked on improving navigation, visual consistency, and overall app usability. The interface helps users easily browse, filter, and adopt pets through a modern and engaging layout. This project strengthened my design thinking, creativity, and user-centric approach.

Certifications

- MERN Stack Workshop (MongoDB, Express, React, Node)
- Full Stack Web Development Workshop
